Professional Summary

Full Stack Developer with 2+ years of experience in software implementation, application support, and web development using Python, JavaScript/TypeScript, SQL, React.js, Node.js, and MySQL/MongoDB. Skilled at translating client business requirements into technical implementation solutions, building secure REST APIs, and delivering responsive, scalable applications in Agile environments.

Work Experience

Full Stack Developer June 2024 – Present
AvalonTribe Infotech *Rajasthan, India*

- Translated client business requirements into product configurations, workflows, and technical implementation solutions, ensuring faster and more accurate solution delivery.
- Designed and implemented 20+ secure REST APIs (JSON), improving data exchange reliability by 40%.
- Integrated OpenAI API and LLM-based automation into production workflows, reducing manual processing time by ∼35%.
- Built 5+ responsive React.js (TypeScript) interfaces and improved frontend performance by 20% using memoization and lazy loading.

Software Developer Intern January 2024 – May 2024
Golden Eagle IT Technology *Madhya Pradesh, India*

- Built and integrated React.js (TypeScript) components with backend APIs within Agile/Scrum sprint cycles, consistently meeting sprint deadlines.
- Debugged and refactored legacy code applying OOP best practices, reducing bug recurrence by ∼20%.
- Participated in code reviews to enforce clean, scalable, and reusable code standards, improving overall code maintainability.

Skills

Languages: Python, JavaScript/TypeScript, SQL
Web Technologies: React.js (Hooks, Component Design, State Management), Node.js, Express.js, HTML5, CSS3
APIs & Integrations: RESTful APIs (REST/JSON), Third-Party API Integrations, Microservices Architecture, OOP
Databases: RDBMS/NoSQL – MySQL (Relational DB Design & Query Optimization), MongoDB
Cloud & DevOps: Git, GitHub, Docker, CI/CD Pipelines
Application Support: Production Troubleshooting, Client Onboarding, Training & System Integrations
AI / LLM Integration: OpenAI API, LLM Integration, Prompt Engineering, AI-Powered Automation Workflows
Testing: Jest, React Testing Library, Unit Testing, Integration Testing
Security: JWT, OAuth 2.0, Role-Based Access Control (RBAC), Secure Coding, Data Privacy Principles
Tools & Practices: Postman, Code Reviews, Agile/Scrum

Projects

AI-Powered Admin Dashboard | *React.js, TypeScript, Node.js, OpenAI API, REST APIs*

- Developed an end-to-end admin dashboard using reusable React.js (TypeScript) components, enabling faster feature rollout.
- Built Node.js REST APIs to power dashboard data and admin workflows, ensuring reliable data flow across modules.
- Designed OpenAI API prompts for LLM-powered summarization, cutting task processing time by 40%.

Fintech Transaction & Rewards Platform | *React.js, TypeScript, Node.js, Express.js, MySQL, MongoDB*

- Designed validated RESTful APIs with RBAC-based security and injection attack protection for 1,000+ user accounts.
- Ensured 100% data integrity by integrating MySQL (RDBMS) and MongoDB (NoSQL) data sources.
- Built reusable, performance-optimized React.js (TypeScript) components for wallet management, deposits/withdrawals, and rewards modules.

Education

Master of Computer Applications (MCA) 2022 – 2024
Medi-Caps University, Indore *Madhya Pradesh, India*

Bachelor of Computer Applications (BCA) 2019 – 2022
Sangam University, Bhilwara *Rajasthan, India*
